Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Applicant's election without traverse of Species I, claims 1-14 and 27 to 36 in the reply filed on 01/05/2004 is acknowledged. Claims 15-26,35 and 36 have been canceled.

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-14,28,30 and 32-33 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In particular, the claimed "successive compressor" that has a plurality of successive transistor paths connecting at least one of the first plurality of inputs of the first compressor to the first carry bit output of the first compressor, and connecting the first carry bit output of the first compressor to at least one of the second plurality of inputs of the second compressor as recited on lines 12-18 of the claim 1 and in claims 28,30,32 and 33 is not corresponding to any element disclosed in the specification and drawings. The recitations on lines 12-18 of the claim 1, and in claims 28,30,32 and 33 appear misdescriptive.

Art Unit: 2193

4. Claims 1-14,28,30 and 32-34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claim 14, the limitations for the "successive compressor" recited on lines 12-18 appear to be misdescriptive for the reason set forth above, and thus it is unclear what are intended to claim. Claims 28,30,32 and 33 also have the same problem.

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

6. Claims 27,29 and 31 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Applicant's admission of prior art disclosed in figure 3 of the application.

The admitted prior art in figure 3 clearly show a compressor having a first plurality of inputs (Ai,Bi,Ci,Di), a summation output (So), a first and second carry bit output (Xo,Co), and a first and second plurality of transistor paths as claimed.

7. Due the uncertain nature of claims 1-14,28,30 and 32-33 as set forth above in the rejections under 35 USC 112, it is impossible to properly compare claims 1-14,28,30 and 32-33 to the prior art at this time.

Art Unit: 2193

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chuong D. Ngo whose telephone number is (571) 272-3731. The examiner can normally be reached on Tuesday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kakali Chaki can be reached on (571) 272-3719. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
